Abstrak

ABSTRAK
Industri farmasi berperan dalam produksi obat-obatan sehingga wajib menerapkan Pedoman CPOB. Peran apoteker sangatlah penting di industri farmasi sehingga seorang mahasiswa profesi apoteker perlu mendapatkan pengalaman kerja sebelum terjun langsung di dunia industri farmasi. Salah satunya melalui Praktek Kerja Profesi Apoteker (PKPA). Tujuan pelaksanaan Praktek Kerja Profesi Apoteker (PKPA) di PT Kalbe Farma Tbk adalah untuk mengerti peranan tugas dan tanggung jawab apoteker di Industri Farmasi, memiliki wawasan pengetahuan keterampilan dan pengalaman praktis untuk melakukan pekerjaan kefarmasian di Industri Farmasi, memahami penerapan GMP CPOB di Industri Farmasi, memiliki gambaran nyata tentang permasalahan pekerjaan kefarmasian di Industri Farmasi. Selama PKPA hal-hal yang dipelajari antara lain pembuatan protokol validasi proses, laporan validasi proses, Product Quality Review, penanganan komplain, uji stabilitas, analisis masalah dalam komplain produk, validasi pembersihan, dan gambaran umum mengenai proses produksi sediaan padat, cair, dan steril.

ABSTRACT
Pharmaceutical Industry's manufacturing activity must be based on GMP. The role of pharmacist in Pharmaceutical Industry is very important; therefore, it is important for Apothecary Profession Program Students to learn and experience how to work in a pharmaceutical industry. The purposes of this internship at PT Kalbe Farma Tbk are to learn pharmacist's role and responsibility in pharmaceutical industry, to get knowledge, skills, and practical experiences to work in pharmaceutical industry, to comprehend GMP implementation in pharmaceutical industry, to get the big picture of problems in pharmaceutical industry's manufacturing activity. Throughout the internship, I've learnt about process validation protocol, process validation report, Product Quality Review, complain response, stability test, analysis in product complains, cleaning validation, and the manufacturing processes of solid, liquid, and sterile products. Pharmaceutical Industry's manufacturing activity must be based on GMP.
