Short and long distance signaling

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20417585&lokasi=lokal

Abstrak

In this book, experts from the field of intercellular transport deal with various aspects on intercellular transport of viruses and plant endogenous macromolecules such as transcription factors, small silencing-induced and micro RNAs, and other RNAs and their function as signals. The aim of the book is to provide the basic information on the cell-to-cell transport mechanism and to give an overview of the current knowledge of this relatively new field of research.
