

Neuromedia : art and neuroscience research

Jill Scott, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417717&lokasi=lokal>

Abstrak

Examines shared territories in neurobiological anatomy, physiology and media art. This title reveals how scientists investigate perception and behaviour at the molecular, cellular and systems level. It demonstrates how interpretative forms of media art can help to demystify these complexities for diverse audiences.
