

Molecular geometry of body pattern in birds

Lima-de-Faria, Antonio, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417777&lokasi=lokal>

Abstrak

Annotation the unexpected patterns displayed by a bird's body have been seen as bizarre events or described as 'amazing curiosities'. Rather, they appear to be an integral part of a rigid order and a coherent geometry, which is directed by simple gene interactions and molecular cascades occurring during the organism's development.
