

Notch regulation of the immune system

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417795&lokasi=lokal>

Abstrak

This special issue on Notch regulation of the immune system summarizes recent advances and covers multiple aspects of Notch signaling within the hematopoietic and the immune system. This issue covers subjects including Notch function in embryonic and adult hematopoietic stem cells, lymphocyte development and function as well as in T cell leukemia.
