

Sacred science?: on science and its interrelations with religious worldviews

Simen Andersen Øyen, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20417978&lokasi=lokal>

Abstrak

The writers of this book set out to investigate whether the symbols of academia may in some cases take on a quality of sacrality, whether the rule of experts can be said to have the character of a "priesthood of knowledge", whether religion has a place in scientific contexts, and a selection of other questions concerning science and its relations to religious belief.
