Abstrak

The book encompasses a wide range of topics, from muscle and meat proteomics to acute phase proteins and proteomics in aquaculture, to name but a few. The book summarily presents the state of the art in farm animal proteomics research in Europe, providing readers with interesting examples of the applications of this set of advanced technologies as well as useful contact details of colleagues with expertise in the field. Furthermore the book will provide an insight for proteomic specialists in demonstrating the breadth of applications that their technology can have in animal and food research.
