

The virtual fields method: extracting constitutive mechanical parameters from full-field deformation measurements

Pierron, Fabrice, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418267&lokasi=lokal>

Abstrak

It contains an extensive theoretical description of the method as well as numerous examples of application to a wide range of materials (composites, metals, welds, biomaterials etc.) and situations (static, vibration, high strain rate etc.). Finally, it contains a detailed training section with examples of progressive difficulty to lead the reader to program the VFM. This is accompanied with a set of commented Matlab programs as well as with a GUI Matlab based software for more general situations.
