

Good governance dalam pengelolaan utang luar negeri

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418760&lokasi=lokal>

Abstrak

A loan or foreign debt is still important for indonesia due to the lack of the domestic funds, especially tax in order to finance the country. However, it management does not effective due to the bad governance that it based on the politic motive than economic, and the official's government tends to corrupt, collusion, and nepotism (KKN). This paper aims to describe the performance of the management foreign debt, and its prospect in the future.
