

Case studies in patient safety : foundations for core competencies

Johnson, Julie K., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20418854&lokasi=lokal>

Abstrak

This compendium of case studies on patient safety - told from the perspective of the patient and family - illustrates 24 stories of preventable health care errors that led to irreparable patient harm. The reader is guided through a structured analysis of the events, eliciting lessons learned and strategies for preventing similar events in the future. Learning objectives for each case facilitate the reader's development of a set of core competencies related to improving safety and quality of health care.
