A course in complex analysis: from basic results to advanced topics

Fischer, Wolfgang, author

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20418884&lokasi=lokal

----

Abstrak

The book presents the fundamental results and methods of complex analysis and applies them to a study of elementary and non-elementary functions (elliptic functions, Gamma- and Zeta function including a proof of the prime number theorem ...) and - a new feature in this context! - to exhibiting basic facts in the theory of several complex variables.
