Excursions in the history of mathematics

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20419005&lokasi=lokal

----

Abstrak

This book comprises five parts. The first three contain ten historical essays on important topics: number theory, calculus/analysis, and proof, respectively. Part four deals with several historically oriented courses, and Part five provides biographies of five mathematicians—Dedekind, Euler, Gauss, Hilbert, and Weierstrass—who played major roles in the historical events described in the first four parts of the work.
