

## Babylonian mathematical astronomy : procedure texts

Ossendrijver, Mathieu, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20419289&lokasi=lokal>

---

### Abstrak

This book contains new translations and a new analysis of the procedure texts of Babylonian mathematical astronomy, the earliest known form of mathematical astronomy of the ancient world. The translations are based on a modern approach incorporating recent insights from Assyriology and translation science.
