

Operator inequalities of the Jensen, CebysLev and Gruss type

Dragomir, Silvestru Sever, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20419388&lokasi=lokal>

Abstrak

The main aim of this book is to present recent results concerning inequalities of the Jensen, Čebyšev and Grüss type for continuous functions of bounded selfadjoint operators on complex Hilbert spaces. This text introduces the reader to the fundamental results for polynomials in a linear operator, continuous functions of selfadjoint operators as well as the step functions of selfadjoint operators. The spectral decomposition for this class of operators, which play a central role in the rest of the book and its consequences are introduced. At the end of the chapter, some classical operator inequalities are presented as well.
