Abstrak

Analysing Newspapers provides students of journalism, communication studies and discourse analysis with a systematic, discourse-based framework for the critical study of newspaper reporting. Assuming no prior knowledge of discursive theory, the book explores how the language of journalism works--its power, its function and its effects. Using wide-ranging and highly topical case studies and examples, students are shown discourse analysis of journalism "in action". Identifying and exploring key linguistic concepts and tools, Richardson provides a detailed introduction to a practical model of critical discourse analysis which students will be able to apply to their own newspaper research.
