Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20419679&lokasi=lokal>

Abstrak

Are international courts effective tools for international governance? Do they fulfill the expectations that led to their creation and empowerment? Why do some courts appear to be more effective than others, and do such appearances reflect reality? Could their results have been produced by other mechanisms? This book evaluates the effectiveness of international courts and tribunals by comparing their stated goals to the actual outcomes they achieve. Using a theoretical model borrowed from social science, the book assesses their effectiveness by analysing key empirical data.
