

Prime divisors and noncommutative valuation theory

Marubayashi, Hidetoshi, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20419887&lokasi=lokal>

Abstrak

Aims at uniting maximal orders, valuation rings, Dubrovin valuations, and more in a common theory, the theory of primes of algebras. This title also establishes possible applications of the noncommutative arithmetics to interesting classes of algebras
