

Introduction to sectional anatomy

Madden, Michael E., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420052&lokasi=lokal>

Abstrak

Looking for resource to help your students fully understand and retain critical knowledge of sectional anatomy? This book begins with key terminology and concepts and then moves through the body from head to toe. It includes imaging modalities, ultrasound, MR, and PET/CT, so your students are fully equipped for what they can encounter in practice.
