

Singularities of differentiable maps, volume 2 : monodromy and asymptotics of integrals

Arnold, V.I., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20420539&lokasi=lokal>

Abstrak

This reprint covers anatomy and physiology of singularities of differentiable functions. Includes the topological structure of isolated critical points of holomorphic functions, the asymptotic behavior of integrals of the method of stationary phase, and more
