

Space pharmacology

Wotring, Virginia E., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20421161&lokasi=lokal>

Abstrak

Space pharmacology is a review of the current knowledge regarding the use of pharmaceuticals during spaceflights. It is a comprehensive review of the literature, addressing each area of pharmacokinetics and each major physiological system in turn. Every section begins with a topic overview, and is followed by a discussion of published data from spaceflight, and from ground experiments meant to model the spaceflight situation. Includes a discussion looking forward to the new medical challenges we are likely to face on longer duration exploration missions.
