Abstrak

[ABSTRAK
 Skripsi ini memaparkan kosakata dalam bahasa Kanak secara morfologis dan semantis. Dari aspek linguistik, penelitian ini bertujuan untuk memahami etimologi sebuah kata serta mengurai komponen makna dalam dongeng berbahasa Kanak Rotkäpschem. Penelitian ini merupakan penelitian kualitatif yang berfokus pada unsur pembentuk kata serta teori semantik bahasa Jerman untuk lebih spesifiknya melihat komponen makna dalam teks. Dari hasil analisis 12 kosakata bahasa Kanak (korpus data), ditemukan bahwa bahasa Kanak atau Kanak Sprache memang merupakan gabungan dari bahasa Turki dan Bahasa Jerman. Namun dominasi bahasa Jerman begitu terasa baik dari segi morfologis maupun semantis.

ABSTRACT<b> This thesis examines the vocabulary of Kanak language morphologically and semantically. From the aspect of linguistics, the study aims to understand the etymology of a word and the meaning components in a modern fairy tale titled Rotkäpschem. The research is conducted qualitatively and focused on word-forming elements and semantic theory in German language. The result of the analysis reveals that from the analysis of 12 words (corpus of data), it was found that Kanak languange or Kanak Sprache indeed a combination of Turkish and German, but the dominance of the German language is much less pronounced in terms of both morphological and semantic.
