Abstrak

[**ABSTRAK**]

Penelitian ini bertujuan untuk mengetahui gambaran kecemasan, ketidakpastian dan pengelolaan kecemasan dan ketidakpastian tersebut pada pasangan yang menikah melalui ta'aruf. Peneliti menggunakan teori Manajemen Kecemasan dan Ketidakpastian (Anxiety and Uncertainty Management ? AUM) yang dikemukakan oleh Gudykunst. Penelitian ini merupakan penelitian kualitatif dengan paradigma konstruktivisme. Informan dalam penelitian ini sejumlah tiga pasangan suami istri yang diperoleh menggunakan teknik purposeful sampling. Hasil penelitian menunjukkan bahwa pengalaman kecemasan dan ketidakpastian pada pasangan yang menikah melalui ta'aruf karena belum saling mengenal sebelumnya dan terbentuknya kategorisasi terhadap calon pasangan. Manajemen kecemasan dan ketidakpastian yang dilakukan oleh informan dalam penelitian ini adalah dengan mencari informasi sehingga terbentuk kategorisasi baru terhadap calon pasangan.
