

Hambatan dalam proses digitalisasi televisi di Indonesia = Obstacles in process of digitizing television in Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20423963&lokasi=lokal>

Abstrak

Teknologi Informasi dan Komunikasi TIK saat ini hampir semuanya berbasis format digital dan sistem pertelevisian di Indonesia akan mengadaptasi sistem digital tersebut. Namun demikian, untuk melakukan perubahan sistem analog televisi ke digital perlu usaha dan kerja keras tidak hanya bagi pemerintah tetapi juga setiap aspek yang terlibat di dalamnya. Beberapa hal yang menjadi hambatan dalam proses digitalisasi televisi diantaranya dari segi teknis regulasi dan sumber daya manusia. Berdasarkan data serta fakta-fakta yang ada, diyakini bahwa saat ini Indonesia belum siap menghadapi digitalisasi televisi.

The latest form of Information and Communication Technology (ICT) are mostly based on digital format and Indonesian television system will be adapting to the digital system mentioned. However, to conduct the system change from analog to digital requires effort and hardwork not only to the governments but also to every aspects involved within it. Some things that become obstacles in the process of digitalization of television are from the technical aspects, regulations and the human resources. Based on data and facts presented, it is believed that Indonesia has yet to be ready for digitization.
