Abstrak

ABSTRAK
Praktek Kerja Profesi (PKP) di puskesmas bertempat di Puskesmas Kecamatan Cengkareng

Jakarta Barat. Kegiatan ini berlangsung selama tiga minggu dari tanggal 1 sampai dengan tanggal 25 September 2015. PKP di puskesmas bertujuan agar mahasiswa program studi apoteker memahami peranan, tugas dan tanggung jawab apoteker dalam praktek pelayanan kefarmasian di Puskesmas sesuai dengan ketentuan perundangan dan etika farmasi yang berlaku, dan dalam bidang kesehatan masyarakat, memahami dan memiliki pengetahuan, keterampilan, sikap perilaku serta wawasan dan pengalaman nyata untuk melakukan praktek profesi dan pekerjaan kefarmasian di Puskesmas, serta melihat dan mempelajari strategi dan pengembangan praktek profesi Apoteker di Puskesmas. Berdasarkan kegiatan PKP yang dilakukan, dapat disimpulkan bahwa Apoteker di Puskesmas Kecamatan Cengkareng memiliki tanggung jawab terhadap pengelolaan sediaan farmasi dan pelayanan farmasi klinik, meliputi pengkajian resep, penyerahan obat, pemberian informasi obat, dan pelayanan informasi obat. Pengetahuan, keterampilan, sikap perilaku serta wawasan dan pengalaman nyata untuk melakukan praktek profesi dan pekerjaan kefarmasian di Puskesmas telah diperoleh penulis. Berdasarkan pengamatan selama pelaksanaan PKPA, Puskesmas Kecamatan Cengkareng secara umum telah menerapkan seluruh aspek pelayanan farmasi klinik dengan baik. Masalah yang terjadi di Puskesmas Kecamatan Cengkareng berupa kurangnya tenaga Apoteker yang tidak seimbang dengan jumlahnya pasien. Selain itu, perlu diadakannya ruang konseling agar kegiatan konseling berjalan dengan baik.

ABSTRACT
Profession Internship in community health center located in Cengkareng, West Jakarta. This activity lasted for three weeks from March 1

st

to September 25

th

2015. Profession Internship in the

community health center aims to make apothecary student understand the role, duties and responsibilities of a pharmacist in the practice of pharmacy services at the community health center in accordance with the provisions of the legislation and pharmaceutical ethics applicable, and in the field of public health, understand and have the knowledge, skills, attitudes and behaviors as well as insight into the real experience to practice apothecary profession and work in health centers, as well as see and learn strategies and the development of professional practice of pharmacists in community health center. Based on profession internship activities undertaken, it can be concluded that pharmacists in Cengkareng sub-district health centers have responsibility for the management of pharmaceutical and clinical pharmacy services, including assessment

prescription, drug delivery, give the information of drugs, and drug information services. Knowledge, skills, attitudes and behaviors as well as insight into the real experience to practice apothecary profession and work in health centers has been obtained by the authors. Based on observations during the implementation, Cengkareng sub-district health centers in general have implemented all aspects of clinical pharmacy services properly. Problems that occur in Cengkareng sub-district health center in the form of shortage of pharmacists is not balanced with the amount of patients. In addition, the holding space needs counseling so that counseling activities run well.
