ABSTRAK
Praktik Kerja Profesi (PKP) di rumah sakit dilaksanakan di Rumah Sakit Anak dan Bunda Harapan Kita. Kegiatan ini berlangsung selama 6 minggu dari tanggal 7 September sampai dengan 16 Oktober 2015. PKP di rumah sakit bertujuan agar mahasiswa apoteker mengerti peranan apoteker dalam pengelolaan sediaan farmasi, alat kesehatan, dan bahan medis habis pakai, dan pelayanan farmasi klinik, serta bekerjasama dengan profesi kesehatan lain. Berdasarkan kegiatan PKP yang dilakukan, dapat disimpulkan bahwa Apoteker di Rumah Sakit Anak dan Bunda Harapan Kita memiliki peran, tugas, dan tanggung jawab dalam pengelolaan sediaan farmasi, alat kesehatan, dan bahan medis habis pakai serta pelayanan farmasi klinik. Mahasiswa apoteker telah berhasil memperoleh wawasan mengenai kegiatan rutin yang dilakukan di rumah sakit. Kegiatan pengelolaan meliputi pemilihan, perencanaan kebutuhan, pengadaan, penerimaan, penyimpanan, pendistribusian, pemusnahan, pengendalian dan administrasi, serta kegiatan farmasi klinis meliputi pengkajian dan pelayanan resep, pelayanan informasi obat, visite, dan dispensing sediaan steril (penanganan obat sitostatik). Kerjasama dengan tenaga kesehatan lain bertujuan untuk menjamin keselamatan pasien demi terciptanya pelayanan kefarmasian yang bermutu.

ABSTRACT
Profession Internship at pharmacy was held at Women's and Children's Hospital Harapan Kita, West Jakarta. This activity was held for six weeks from September 7th until October 16th 2015. Profession Internship at pharmacy was intended to make apothecary student understand the role of pharmacists, have insight into the implementation of pharmaceutical practice, learning strategies and the development of professional practice of pharmacists, have real description of the issues of pharmaceutical practice in health centers, as well as to communicate and interact with other health professionals. Based on the activities, it can be concluded that the pharmacist at Women's and Children's Hospital Harapan Kita have a role, duties and responsibilities in the management of pharmaceutical, medical devices, and medical materials and consumables pharmaceutical care clinic. Apothecary student have obtained insight into routine activities in

pharmacy. Pharmaceutical technical activities include selecting, requirement planning, procurement, reception, storage, extermination, control and administration, and activities include assessment of clinical pharmacy services and prescription drug information service, visite, and dispensing sterile preparations (handling cytostatic drugs). Cooperation with other health professionals aims to ensure patient safety in order to create quality pharmaceutical services.
