

Wong's nursing care of infants and children

Hockenberry, Marilyn J., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20425033&lokasi=lokal>

Abstrak

Content provides a holistic view of the child and family by integrating aspects of wellness and health such as play, safety, language, self-esteem, nutrition, dental health, sleep, exercise, and sexuality into the appropriate age chapters.

Nursing care plans incorporate patient- and family-centered goals, include rationales for nursing interventions, and contain NIC and NOC outcomes and interventions where appropriate.
