

Atomic processes in basic and applied physics

Shevelko, Viacheslav, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20425061&lokasi=lokal>

Abstrak

The book is a comprehensive edition which considers the interactions of atoms, ions and molecules with charged particles, photons and laser fields and reflects the present understanding of atomic processes such as electron capture, target and projectile ionisation, photoabsorption and others occurring in most of laboratory and astrophysical plasma sources including many-photon and many-electron processes.
