

Light pollution : responses and remedies

Mizon, Bob, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20425089&lokasi=lokal>

Abstrak

This book considers the two available strategies open to astronomers, get rid of the light pollution by lobbying authorities and standards organisations, and minimize its effects by using the correct instrumentation. The book contains an extensive detailed catalogue of deep-sky and other objects that, despite what one might believe, can be seen from variously light-polluted sites, for practical observers.
