

Energy storage and release through the solar activity cycle : models meet radio observations

Marque, Christophe, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20425156&lokasi=lokal>

Abstrak

This book presents current research in solar radio astronomy and shows how well it fits in the exceptional scientific context brought by the current space solar observatories. It essentially contains contributed research and review papers presented during the 2010 Community of European Solar Radio Astronomers (CESRA) meeting, which took place in Belgium in June 2010.
