Abstrak

Significantly expanded, expertly and beautifully illustrated, The AJCC cancer staging atlas, 2nd edition, offers more than 600 illustrations created exclusively for this new edition and is fully updated to reflect the concepts discussed in the 7th edition of both the AJCC cancer staging manual and its companion Handbook. This atlas illustrates the TNM classifications of all cancer sites and types included in the 7th edition of the Manual and visually conceptualizes the TNM classifications and stage groupings. Specifically designed for simplicity and precision, the drawings have been verified through multi-disciplinary review to ensure accuracy and relevancy for clinical use. Every illustration provides detailed anatomic depictions to clarify critical structures and to allow the reader to instantly visualize the progressive extent of malignant disease. In addition, nodal maps are included for each site, appropriate labeling has been incorporated to identify significant anatomic structures, and each illustration is accompanied by an explanatory legend.
