

An introduction to credit derivatives

Choudhry, Moorad, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20426776&lokasi=lokal>

Abstrak

The second edition of *An Introduction to Credit Derivatives* provides a broad introduction to products and a marketplace that have changed significantly since the financial crisis of 2008. Author Moorad Choudhry gives a practitioner's perspective on credit derivative instruments and the risks they involve in a succinct style without sacrificing technical details and scientific precision.

Beginning with foundational discussions of credit risk, credit risk transfer and credit ratings, the book proceeds to examine credit default swaps and related pricing, asset swaps, credit-linked notes, and more. Ample references, appendices and a glossary add considerably to the lasting value of the book for students and professionals in finance.
