

Analisis pengaruh dana otonomi khusus, dana alokasi umum dan pendapatan asli daerah terhadap pertumbuhan ekonomi (studi kasus di provinsi Aceh)

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20428295&lokasi=lokal>

Abstrak

this study aims to test and demonstrate empirically the influence of special autonomy fund (DOK), the general allocation fund (DAU) and PAD allegedly not necessarily improve economic growth. This study analyzed the partial influence of DOK, DAU and PAD to conomic growth in Aceh province.

this stady covers 23 districts / cities and one countained in the Aceh province. The data in this study is a secondary data countained in the office of financial management aceh (DPKA), the central bureau of statistics provinces of Aceh and other sources that can be accounted for.

Based on the results of data processing show that partially DOK and DAU significant effect on economic growth in Aceh. While variable PAD negatively affect economic growth in the province. The most dominant variable is DOK, this due to the use of DOK has been set for a sector that has a greater impetus to economic growth, such as infrastructure, health an education.

The results date processing, also indicates that the variable DOK, DAU and PAD simultaneously significant effect on economic growth in Aceh.
