Abstrak

Sukabumi, which is located between Jakarta and Bandung, is one of tourism area in West Java. The beach and mountain range, especially in South Coast Sukabumi, has been becoming a tourist attraction. Tourist can spend their time in the beach for diving, surfing, fishing, and boating. The mountain range is becoming "Suaka Margasatwa" which protecting scarce animals and tourists can see those animals closely. The abundance of Sukabumi nature sources must use for the Indonesia tourism development. In the fact, that nature sources which can become a tourist attraction, spreads in many area. Those causes the tourist attractions are not use optimally by the tourist or by the society. The government must take a serious step. One-step, which can take, is compiling those areas and after that, the government can build a good settlement.
