Abstrak

Penelitian ini bertujuan untuk menganalisis pengaruh karakteristik bank dan makroekonomi terhadap tingkat likuiditas yang diukur menggunakan loan to deposit ratio pada bank dengan 10 aset tertinggi di Indonesia periode lima tahun mulai dari 2010 sampai dengan 2014. Pengujian dilakukan dengan model regresi least square. Hasil penelitian ini menemukan bahwa karakteristik bank dan makroekonomi memiliki pengaruh terhadap tingkat likuiditas bank yang diukur melalui loan to deposit ratio.

.....This research is aimed to analyze of bank characteristics and macroeconomy on the bank liquidity level was measured using loan to deposit ratio in bank with the highest assets in Indonesia during the period of five years starting from 2010 up to 2014. The tests were conducted with the least square regression model. The results of this research found that firm characteristics and macroeconomics have influence on the bank liquidity.
