ABSTRAK

Status fungsional adalah kemampuan individu untuk melakukan pemenuhan kebutuhan dan perawatan diri secara mandiri dalam aktivitas rutin sehari-hari. Status fungsional yang menurun berdampak pada penurunan kemandirian, sehingga lansia menjadi ketergantungan. Penelitian ini bertujuan untuk mengetahui pengaruh intervensi keperawatan spiritual dan latihan chair yoga selama 12 sesi latihan terhadap status fungsional dan kepuasan hidup lansia. Penelitian kuasi eksperimen dengan kelompok kontrol dengan sampel 42 lansia kelompok perlakuan dan 42 lansia kelompok kontrol. Teknik pengambilan sampel yang digunakan adalah simple random sampling. Hasil penelitian menunjukkan intervensi keperawatan spiritual dan latihan chair yoga berpengaruh signifikan meningkatkan status fungsional ($p=0,000$) dan kepuasan hidup ($p=0,000$). Hasil uji MANCOVA menunjukkan pengaruh intervensi keperawatan spiritual dan latihan chair yoga diperkuat oleh usia dan aktivitas fisik ($p=0,000$). Spiritual dan latihan chair yoga dapat meningkatkan status fungsional dan kepuasan hidup pada lansia secara signifikan. Intervensi keperawatan spiritual dan latihan chair yoga merupakan salah satu terapi komplementer sebagai upaya peningkatan status fungsional dan kepuasan hidup lansia yang dapat digunakan oleh perawat di masyarakat
