

Praktik kerja profesi di PT. Kalbe Farma, Tbk. periode bulan Januari sampai Maret tahun 2016 = Internship in PT. Kalbe Farma Tbk on January until March 2016

Billy Kristiawan, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20434939&lokasi=lokal>

Abstrak

Industri Farmasi merupakan instansi penting dalam ketersediaan obat. Dalam menjalankan perannya, terdapat tiga posisi kunci dalam industri farmasi, yaitu pemastian mutu (QA), pengawasan mutu (QC), dan produksi. Selain itu, terdapat juga bagian-bagian penunjang dalam industri farmasi, seperti penelitian dan pengembangan (R&D), teknik, dan regulatori. Pengawasan terhadap industri farmasi beserta produknya dilakukan oleh BPOM. Untuk memberikan gambaran yang lebih jelas mengenai proses kerja industri farmasi serta keterlibatan apoteker di dalamnya, maka dilakukan Praktik Kerja Profesi oleh calon apoteker pada salah satu industri farmasi, yaitu PT. Kalbe Farma, Tbk. Selama PKP, calon apoteker diharapkan mampu untuk mengetahui dan memahami penerapan CPOB dan kompetensi Apoteker.

<hr>

Pharmaceutical Industry is an important institution that has role in availability of drugs. In order to carry out its role, there are three key positions in the pharmaceutical industry, which are Quality Assurance, Quality Control, and Production. Beside that, there are supporting department, such as Research and Development (R&D), Engineering, and Regulatory Affair. Pharmaceutical industry and its products are supervised by BPOM. In order to give better explanation of pharmaceutical industry work processes and the involvement of pharmacist in it, then internship is done by pharmacist to be in one of pharmaceutical industry, PT. Kalbe Farma, Tbk. During internship, pharmacist to be should be able to know and understand the application of GMP and pharmacist competencies.
