

Continuous process improvement : teams & quality

Chang, Richard Y., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435477&lokasi=lokal>

Abstrak

This issue describes the key concepts of continuous process improvement. It presents the select, analyze, measure, improve, evaluate (SAMIE) model. It describes the major steps, key tasks, and tools that correspond to each step of the model, and explains how to implement continuous process improvement in training.
