

Instructional objectives: instructional systems development

Plattner, Francis B., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435503&lokasi=lokal>

Abstrak

Instructional objectives are important to help ensure that a training intervention provides consistent results across a large training audience. Objectives also provide a baseline to prove the intervention was successful. This Infoline shows you how to create clear and measurable instructional objectives as well as tips and guidelines and sample statements to aid in your learning.
