

Developing & administering training: a practical approach

Overfield, Karen, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435568&lokasi=lokal>

Abstrak

Training programs, like other products, have life cycles. They are designed to teach a specific skill or knowledge that a needs analysis has determined is both necessary and missing from the workforce. The needs analyst turns his or her findings over to...
