How to create a good learning environment: training basics

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20435641&lokasi=lokal

----

Abstrak

Why does even the most expertly designed and deployed training sometimes fail to produce the desired results? Could a poor learning environment be the answer? This issue presents a comprehensive discussion of why and how adults learn. It discusses various instruction methods, their characteristics, advantages and disadvantages, and offers concrete tips and advice on how you can create a winning learning environment in your organization.
