

Instructional design for WBT: training technology

Harris, Phillip M., author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20435709&lokasi=lokal>

Abstrak

Designing training for the Web shares many similarities with designing for the classroom environment, yet there are some significant differences as well. This Infoline shows you how to adapt your current preparation methods for e-learning. It translates the familiar ADDIE model of instructional design to Web-based training, so you can make the transition quickly and easily.
