

The environmental design pocketbook

Pelsmakers, Sofie, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20436391&lokasi=lokal>

Abstrak

This illustrated pocketbook for low energy building design is the answer to the professional designer's prayers. It distils the most relevant information about design theory, technology, building science, and best practice into a simple format that is quick and easy to use.
