

Birmingham: shaping the city

Flatman, Ben, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20436452&lokasi=lokal>

Abstrak

"Birmingham: Shaping the City" is an authoritative and objective assessment of the redevelopment and regeneration of Birmingham. It tells the story of how Joseph Chamberlain's grand Victorian city was almost obliterated due to an infatuation with the car and how a belated but vital reassessment took place at his home, Highbury in 1988, leading to arguably the most dramatic transformation of any city in the country.
