Abstrak

Vocatinal school is one of the high schools that has been choen as priority for students after junior high school. But when they are not able to continue their study , they can make job field and invite others to work together. But in teaching and learning process, teachers still gate some problem. so, the teacher should more creative to apply more interesting methods for strategy. One of model is introduced by the writer, cooperative learning that is guessing word type. It is hoped that the model will help students.
