Biological reaction engineering : dynamic modelling fundamentals with simulation examples

Dunn, Heinzel

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20438172&lokasi=lokal

----

Abstrak

Using a combination of simplified fundamental theory and computer simulation, it presents the modeling of dynamic biological engineering processes. The programs are written in the simulation language Berkeley Madonna, which runs on Windows PC and Power-Macintosh computers. It is suitable for teachers, students, biochemists and engineers.
