

Gender earning gaps and return to schooling in Korea

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20438491&lokasi=lokal>

Abstrak

The Mincerian earnings functions are estimated using cross section and time series data for Korea during the 1993-2002 period. Male and female workers with university and higher education earn 1.8 and 2.9 times more than with the middle school and under education in 2002, respectively.
