

How to select and use learning tools: instructional systems development

Myers, Judith Gillespie, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20438743&lokasi=lokal>

Abstrak

This book is about choosing the right learning tool. In deciding which learning tool to use your training session, you need to consider a number of factors. To select the most effective learning tools for your situation, consider these points. As your circumstances. For example, if your group size is small, wireless tables may be useful, but you may find you have neither funding nor the technical requirements.
