

Using music as a training tool: instructional systems development

Millbower, Lenn, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20438817&lokasi=lokal>

Abstrak

Looking for a unique way to present information that your audience will remember? This Infoline shows you how to use music for effective training. The issue explains its effect on the human brain and how to harness those effects to establish a positive mood, minimize negative conditions, aid memorization, enhance reviews, and foster creativity. You'll also learn to select the right kind of music for any training activity.
