Getting paid: an architect's guide to fee recovery claims

Carnell, Nicholas J., author

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20439859&lokasi=lokal

----

Abstrak

Written by a respected construction lawyer and a practicing architect, Geeting paid starts by describing the problems which may face an architect's practice in pursuing fee claims and looks at the practicle and contractual steps which might be taken to reduce these risks. Intended as convenient and readable guide that can be turned to for help in dealing with day to day problems, Getting paid contains very little discussion of theory, and references to cases have been kept to a minimum.
