

Eric Lyons and span

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20439881&lokasi=lokal>

Abstrak

Lavishly illustrated and meticulously, this catalogue celebrates the work of the architect Eric Lyons, whose widely applauded post-war housing-that today would be marketed as "lifestyle housing"- is well-loved now as it was vibrantly successful when first constructed. Built almost entirely for span development, its mission was to provide an affordable environment 'that gave people a lift.'
